OneBoard – Web Application Screenshots

The screenshots below show the main screens of the OneBoard web application, running on localhost.

1. Sign in

Passengers sign in with their SA ID number and password.

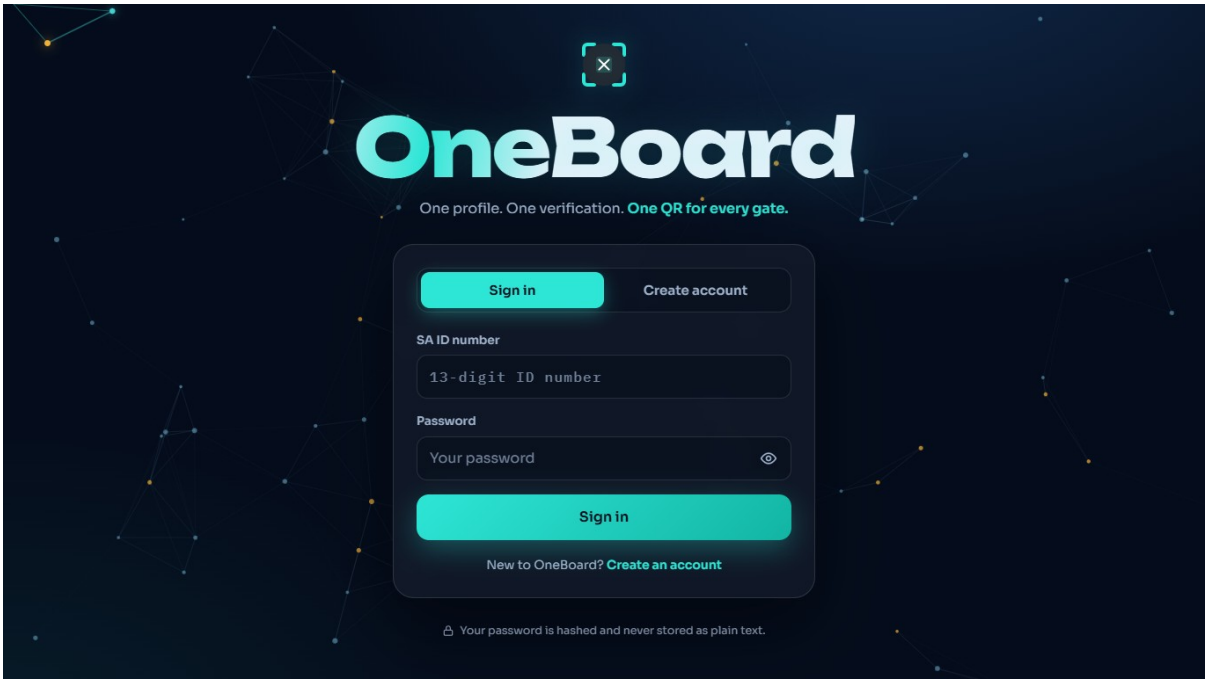

Figure 1: Sign in

2. Create account

New passengers register with their name, SA ID number, email, mobile number, nationality and a password.

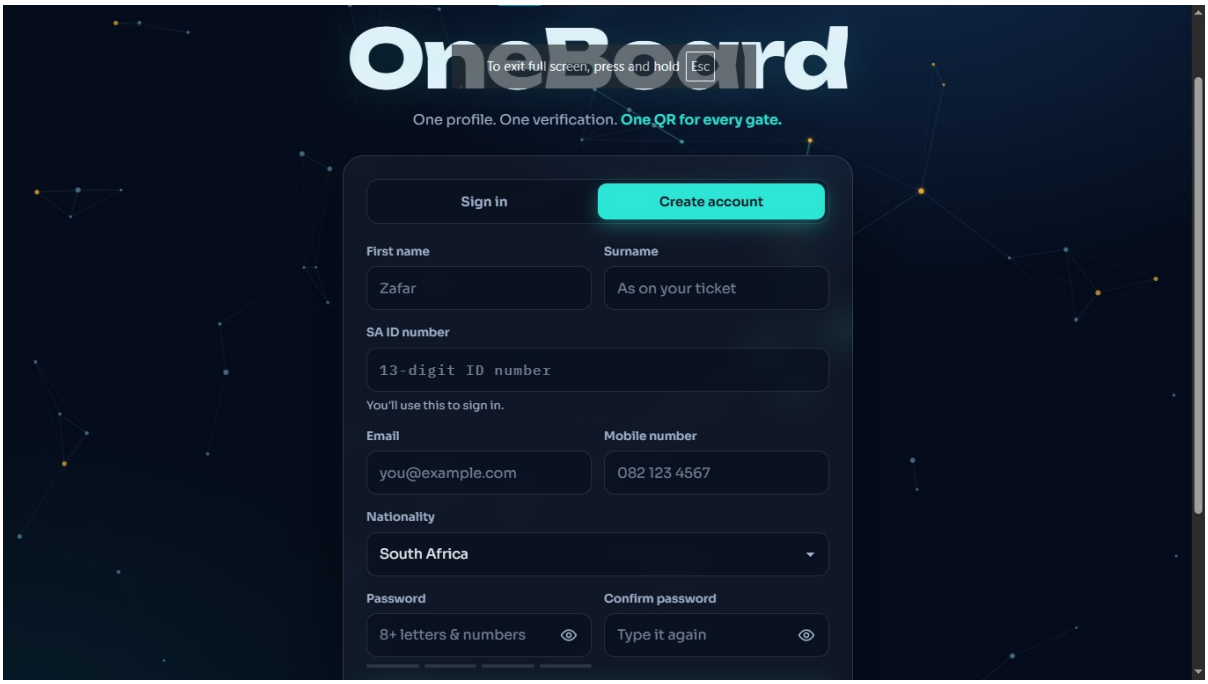

Figure 2: Create account

3. Home page

The home page shows upcoming trips, the Add a trip button, notifications and the profile menu.

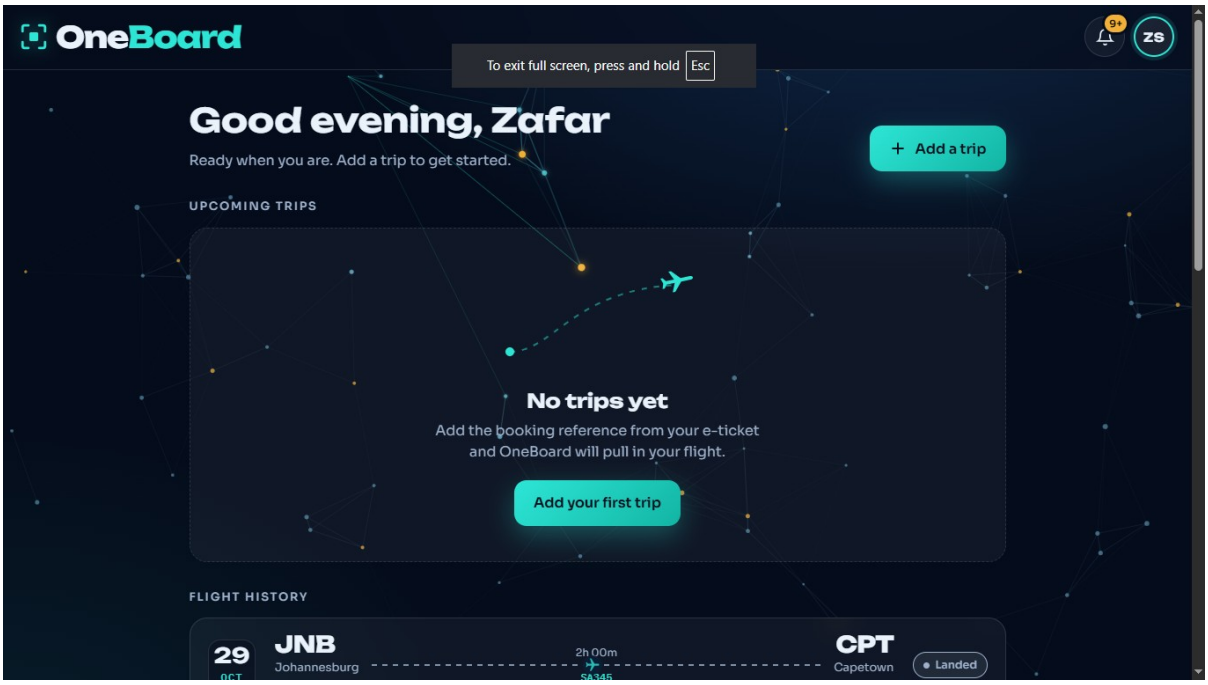

Figure 3: Home page

4. Profile overview

The profile shows the verified traveller badge and travel stats: flights flown, hours in the air, cities visited and upcoming trips.

Figure 4: Profile overview

5. Profile – Your details

Name, ID number and date of birth are locked as the verified identity. Email, mobile number and nationality can be updated.

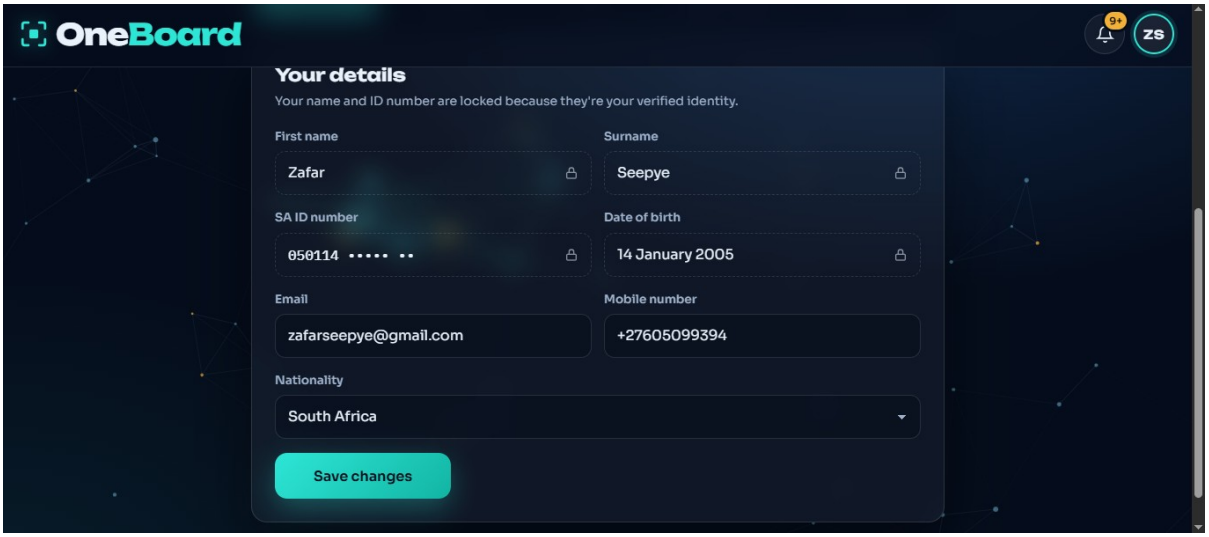

Figure 5: Profile – Your details

6. Profile – Settings

Dark mode, notifications, seat preference and meal preference. Changes save automatically.

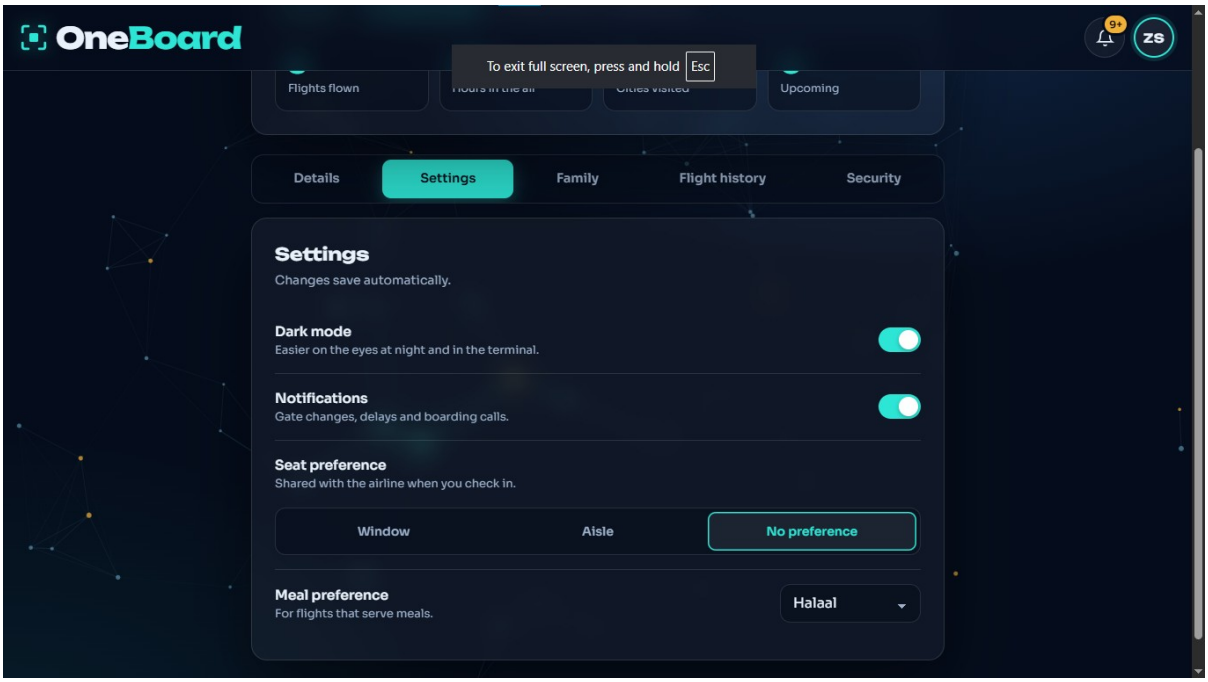

Figure 6: Profile – Settings

7. Profile – Family

Passengers can add the people they travel with, so their bookings can be added and their passes shown from one phone.

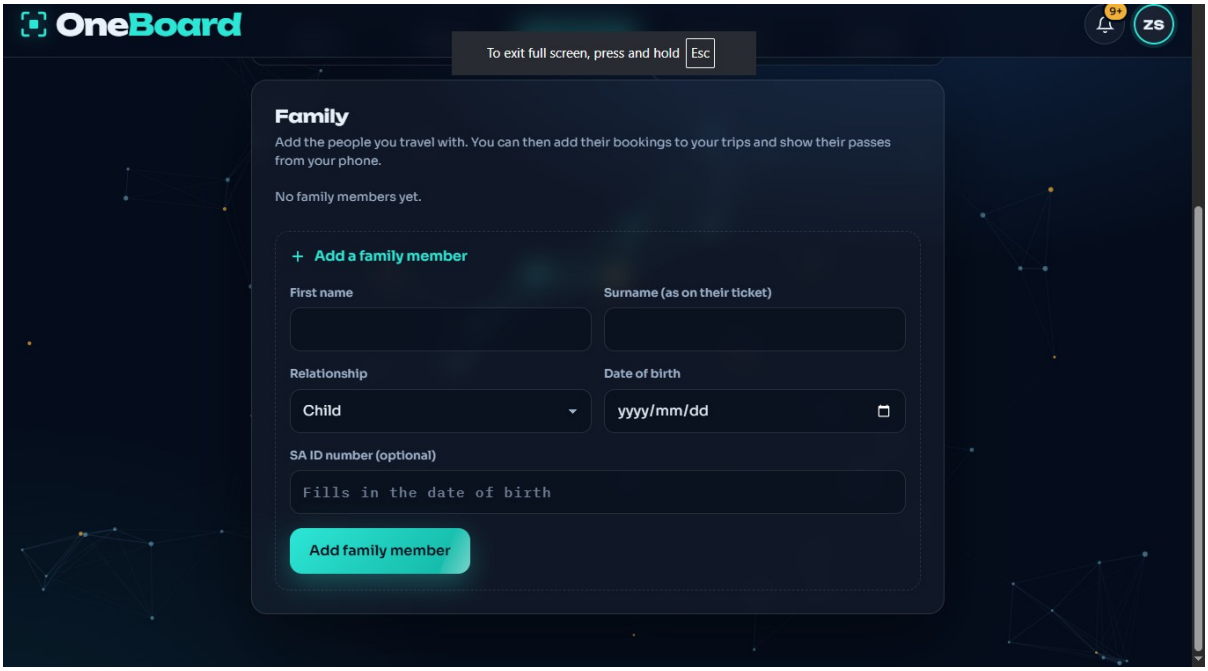

Figure 7: Profile – Family

8. Profile – Family tab

The family tab with the form for adding a family member.

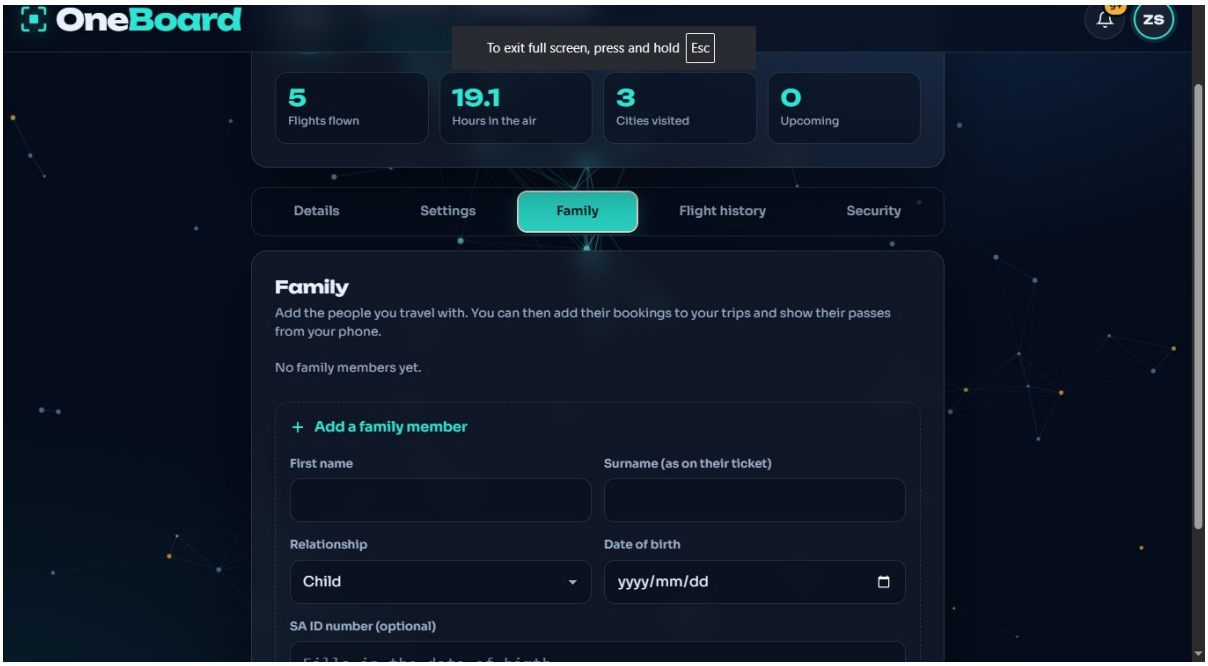

Figure 8: Profile – Family tab

9. Profile – Flight history

A list of completed flights with route, date, flight number, cabin and seat.

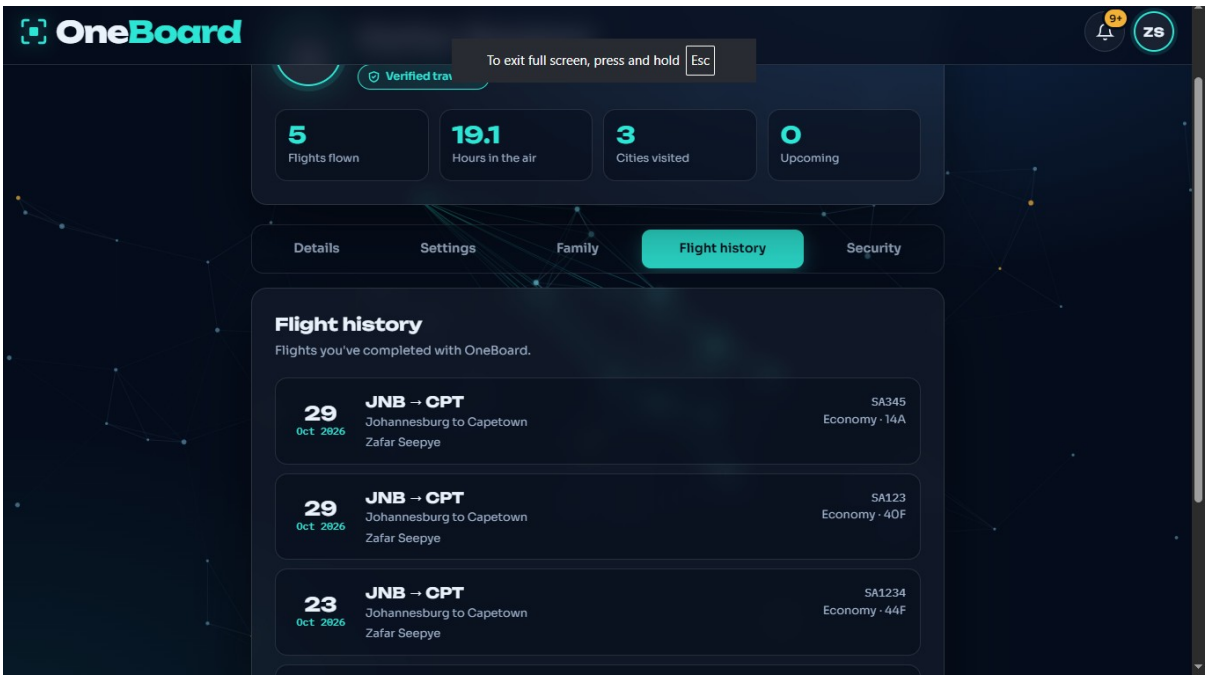

Figure 9: Profile – Flight history

10. Add a trip

A trip is added using the booking reference on the e-ticket and the passenger's surname.

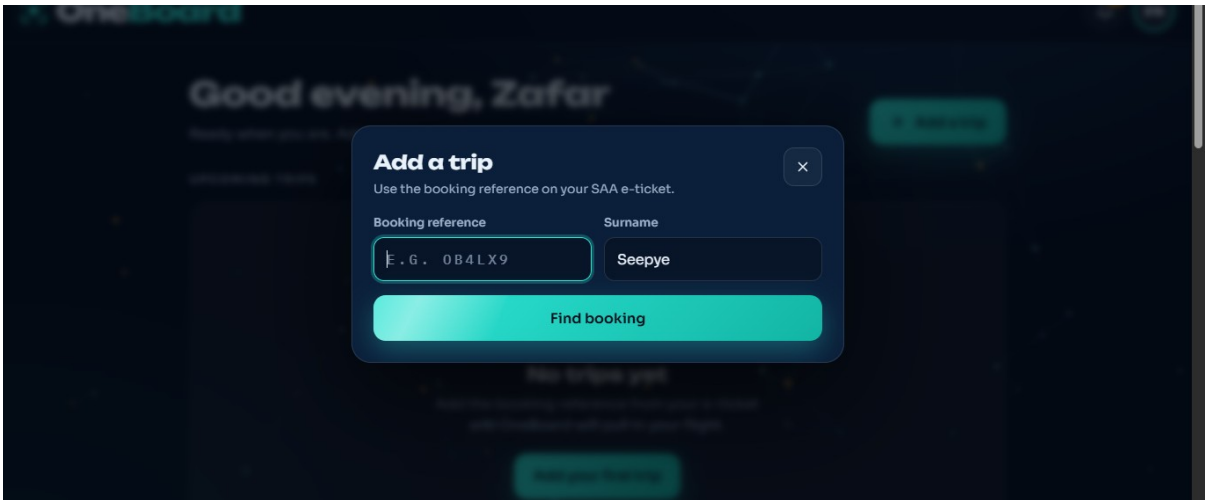

Figure 10: Add a trip

11. Home page – Flight history

Past trips on the home page, showing the route, times, seat, cabin, gate, booking reference and status.
